

Would you strongly support, somewhat support, somewhat oppose or strongly oppose upgrading and refurbishing existing nuclear power plants?

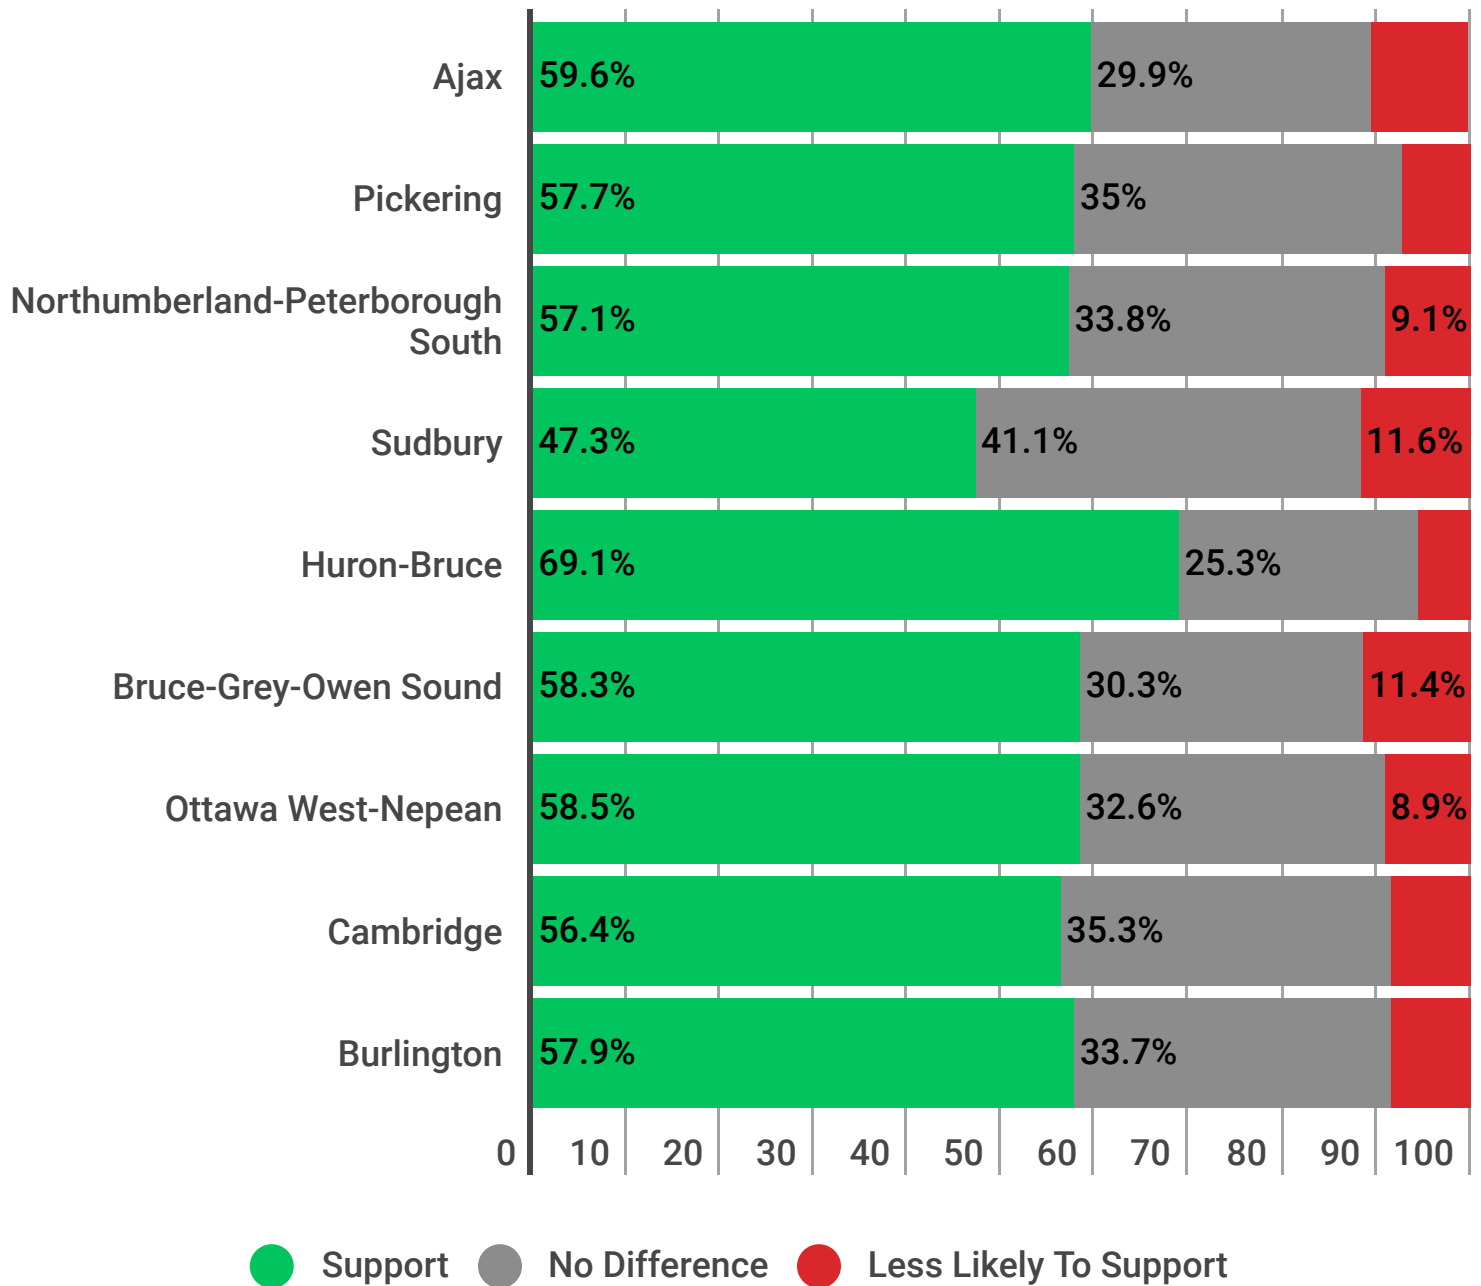

As part of Ontario's Long Term Energy Plan, Bruce Power will generate 30 percent of the province's electricity at 30 percent less than the average cost to generate residential power.

Ontario's Bruce nuclear power plant is a leading global supplier of Cobalt60, a isotope used to sterilize hospitals, medical equipment and treat brain tumors.

Bruce Power's nuclear facilities generated 70% of the additional electricity needed to phase-out the use of coal fired power in Ontario.

Bruce Power is the source of job creation and investment throughout Ontario supporting 22,000 jobs across the Province and over \$4 Billion in annual economic activity.
